Madison | 10/2013 - 01/2015

- Designed customized graphics for social and corporate events.
- Created advertising for print and digital media.
- Managed quality control of print-ready files ensuring visual fidelity.
- Designed and built websites in HTML/CSS with a focus on usability and aesthetics.

PROFESSIONAL PHILOSOPHY & PASSION

Born in Huinca Renancó and the youngest of five, my passion for design began by watching my older siblings work on computers, creating and printing. That early inspiration defined my professional path and drove me to pursue a design career.

Beyond work, I enjoy passions like football (a big River Plate fan), cinema, video games, and music—all of which influence my creativity and perspective. I deeply value family bonds and balance between personal and professional life, which allows me to approach challenges with a clear and creative mind
